

## POLAR Northern Resident Scholarship

---

1. Polar Knowledge Canada is sponsoring four scholarships, valued at \$10,000 each, for Canadian citizens or permanent residents of Canada who are identified as long-term residents\* of Nunavut, Northwest Territories, Yukon, or the Provincial north, and are currently enrolled in a post-secondary graduate diploma/degree program at a Canadian college or university (PhD or Master's).  
\*A "long-term resident" is identified as a person who has resided in the north for eight years or more. ACUNS defines northern Canada as the region on or above the line indicated on the Northern Boundary Map: <http://acuns.ca/website/awards/northern-boundary-map/>
2. Proposals are invited from candidates from all subject areas who (a) engage in research culminating in a thesis or other such document, (b) include direct northern field research in Canada or the circumpolar north, (c) whose program makes a contribution to the North and (d) who demonstrate leadership in northern scholarship.  
*Note: For projects including field research outside of Canada, the relevance and benefit of the circumpolar fieldwork to Canadian northern scholarship must be clearly indicated.*
3. The research project must involve a northern fieldwork component that is conducted in northern Canada or the circumpolar north (Finland, Greenland (Denmark), Iceland, Norway, Russia, Sweden and the USA-Alaska) between May (the year the scholarship is granted) and March (of the following year).  
**(The ACUNS Awards Program does not expect applicants and recipients to carry out fieldwork and/or community outreach activities during a global pandemic. It appears travel and social restrictions will extend well into 2021. Therefore, we will waive the fieldwork/community outreach criterion when adjudicating and administering the ACUNS awards.)**
4. The selection committee will be guided by the following considerations: academic record, the quality of the written application, the potential benefits of the proposed research, the referees' reports, and the applicants' leadership skills and interest in, and commitment to northern scholarship. Eligible proposals must demonstrate in their application how their project will help achieve Polar Knowledge Canada's mandate: <https://www.canada.ca/en/polar-knowledge.html>.
